

# Great Patagonian adventure, Argentina

January 18/26, 2023

9 days / 8 nights

Buenos Aires – Esquel - Bariloche - Calafate

## SUMMARY

*Patagonia is synonymous with intense rugged beauty and world-class hiking. You would struggle to find a more intensely beautiful, rugged and diverse countryside, from vivid green alpine meadows dotted with wildflowers, to vast steppes stretching as far as the eye can see.*

*Covering the entire area of southern Argentina & Chile, Patagonia boasts a landscape of hugely varied terrain and insurmountable natural beauty; from broad vistas, snow-capped mountains and enormous glaciers, to wild rivers and crystal clear lakes, lush forests and breathtaking sunsets. It's a land that for years has inspired legends and mystical stories of adventure; it's a dream location for outdoor enthusiasts around the world.*

*Patagonia is also one of the richest places in dinosaurs fossils worldwide. Some of the most spectacular species of these legendary animals have been discovered in several paleontological sites in the vast spaces of Neuquen province. Join us in a unique 9-day adventure that weaves together one lifetime moment after another: visit the land where the biggest dinosaurs are known to have roamed and enjoy the best of Patagonia: the lake district area, its forest and volcanoes, its regional cuisine, its delicious chocolates and its magnificent National Parks: Los Alerces, Nahuel Huapi and Los Glaciares.*
